I understand these are difficult and very atypical times and you may not be able to get every item on this list. Please keep in mind that any items purchased will need to be wiped down frequently without deterioration, so please focus on getting things that are hard surfaced. For something such as the backpack, get something that is made of strong, thick material that can be wiped down or washed without being messed up. While any items you are unable to get we may be able to provide, I encourage you to get what you can. As a safety measure, we will not be sharing supplies or have communal supply stations like the students were used to last year. We must ensure every safety precaution possible is being taken. If you have any questions about this or in the future, please feel free to contact me at my email address:
